

Biblical Equipping Part 1

Processing Discussion

Before you launch into part 2 and 3, I'd like to invite you to do some processing of what you've learned so far about the Biblical Equipping cycle.

Think of one of your group members and plan what you would say to them about **What the Biblical Equipping model will bring to your group if you put it into practice.**

Has your group routinely been reading books *about* God or living a life of faith rather than the Bible itself? Think of one person in your group and plan how you would describe to them **the advantage to taking a Biblical Equipping style approach to God's actual Word.**

Your coach is looking forward to hearing from you so let them know you've seen this first segment and are ready to talk about it.
